WICASA CHAIRMAN'S MESSAGE

CA Nitin P Hargude,

Chairman, WICASA KOLHAPUR

Dear Students,

Warm greetings to all of you in the month of July 2023. As we enter the 75th year of ICAI, we are proud to celebrate the ICAI Foundation Day on July 1st. Being a proud torchbearer of one of the world's largest and oldest accounting bodies, it is an immense moment of pride for me personally to partake in this celebration, while also feeling a great sense of responsibility towards society and meeting their expectations.

This month, many of you who have appeared for the CA exams will receive your results. Some will achieve outstanding success, while others may need to make another attempt. In this regard, it is important to remember that failure is not final, and there is always another opportunity. For those who will become Chartered Accountants, I extend my best wishes to you in advance.

On the WICASA forum, we will be organizing various activities to celebrate the 75th CA Day on July 1st, 2023. These activities include a Walkathon, a Blood Donation Camp, and a Felicitation ceremony for seniors in the profession. Additionally, on the same day, we will be honoring doctors on the occasion of Doctor's Day. Furthermore, on July 3rd, on occasion of Guru Pournima we will be conducting interviews with experienced professionals who will share their journey in the CA profession. We have planned numerous other activities and programs for the benefit of students.

In the month of June 2023, we successfully conducted several activities. We celebrated Environment Day by collecting E-Waste from our members and students in association with the IT Association and the Kolhapur Municipal Corporation. Under the guidance of the Skill Board of ICAI, we organized an Elocution and Pitch Desk Competition, and the top two winners were sent to the WIRC for the Regional Level Competition. We also conducted a Yoga Day event for women members and students, which received an overwhelming response. Additionally, we held two half-day seminars on topics such as Audit Trail, Computerized Environment Under Tally, and GST litigations. We are delighted by the wholehearted support of our students in all these activities, and we hope to receive the same level of active participation from all of you in the upcoming months.

Thank you for your attention, and I look forward to meeting you all in person for the various activities scheduled in July 2023.

Wishing you a very happy 75th CA Day...

When Nothing Goes right.... Go left!

I hope that my essay will attract you as much as my title attracted you. I hope that the reader will find some inestimable pleasure in reading my essay and this will bring some sort of valuable movements to him.

There are 8 billion people in world who are alive on this earth, everyone has different things, Goals and their faces are also different, but I think life is all about dealing the situations with courage behind a happy smile. Those situations can be either favourable or unfavourable but tour smile will brittle them. Live the life at elevated. Just think that you are getting these movements back, I know that you will have so many regrets on your past, unthoughtful decisions that you have made in your younger age but don't let those regrets bother you. You are unique don't ever try to compare yourself with others. Just like everyone have different mindsets. Always respect the peoples who care for you, who loves you and who are always there for you.

keep your mind strong and do not let negativity drive yourself crazy. If you wanted to be loved by yourself then bear the pain of discipline. Get up and make a list of problems you are facing terminate your distractions completely. Simplify the things and affirm yourself that nobody is going to survey your readymade success you must work for it.

Don't be ashamed of your own weakness make them your strength. There are also peoples who want to see you at the top, they are the supporters for you so make them proud. Don't be busy on criticizing others mistakes learn from their also. Come out of your comfort zone & push yourself. First of all, work on yourself and then suggest everybody if you are able to control your own feelings you can conquer the whole world. Stay consistent at your work and you will see the difference.

Stay firm on your decisions if you think you are going wrong then stand in front of mirror and you will meet the baleful soul who will give you suggestions never waste your time on explaining peoples that valuable time on peoples who don't value your opinion.

Life is diagram of innumerable dots that will from a full circle at the end of it.
